

ESFCR PROJECT

EUROPEAN UNION
Evropský sociální fond
Operační program Zaměstnanost

Project **Development of Employees' skills at MoroSystems Software Development, s.r.o.** supported by the Employment Operational Program is co-financed by the European Union.

The aim of the project is to increase the level of knowledge and skills of the employees and thus ensure that their qualifications and competences are in compliance with the requirements for the performed work activities. The project is in line with the European Growth Strategy. Implementation of the project will contribute to the support of business education as one of the main pillars of the company's ability to be competitive in the market.
